Subject	
Final tariff for the peak service 2009	

Dear Madam or sir,

By letter LTF 08.2082 (15 December 2008) GTS informed you about the provisional tariff for the peak service in 2009. We informed you that not all capacities that are needed for the peak supply were under contract at that time.

During the first half of 2009, two capacity purchasing rounds have been completed, as a result of which GTS has been able to contract all needed capacities.

In the meantime, on 30 June 2009 the Dutch Office of Energy Regulation (EnergieKamer) established the Tariff decision by which the final tariffs for transport and quality conversion are determined for the second half of 2009. This tariff decision has the consequence that the tariff for the peak service 2009 changes, since the peak service tariff includes costs for transport.

Because all capacities are now under contract and taking into account the new tariffs for transport en quality conversion, GTS is now able to set a final tariff for the peak service for 2009.

The final tariffs for the peak service 2009 are given in the table below:

Tariff element	Tariff 2009	Unit
Peak supply tariff for entry capacity (to be applied in three winter months)	9,15	€ / m ³ (n; 35,17) / h / year
Peak supply tariff for peak service (to be applied each month)	41,096	€ / m ³ (n; 35,17) / h / year

Gas Transport Services B.V.

Date: 20 August 2009

Our reference: LTF 09.1485

Subject: Final tariff for the peak service 2009

This tariff applies for year 2009. The invoices that you have received from GTS so far this year were based on the provisional tariff. This means that GTS will send you correction-invoices for the months that have been invoiced so far.

We trust to have informed you sufficiently. However, should you have any further questions, please do not hesitate to contact your account manager

Yours sincerely,

GAS TRANSPORT SERVICES B.V.
